

**1:019:044:000 – Electro Mechanical Vibrating  
Feeder Complete**

- a. **Unbalance Vibrating Motor:**  
Rated Output – 2.2 kw, 415v AC, 3 phase, 50 c/s  
RPM: 950  
Max. Centrifugal Force : 22930 N  
Class of Ins : F Class
- b. **Liner** : 10 mm sailma /sail hard (bottle both side & back) suitable for unbalance motor (2.2 kw) operated vibrating feeder with counter schenck bolts, Nuts, washers.
- c. **Wire Rope** : Spare wire rope (12 mtrs) for vibrating feeder.
- d. **D Shackles** : (1 set of 8 nos.) for unbalanced motor operated vibrating feeder.
- e. **Compression Spring** : (1 set of 4 nos. for unbalanced motor operated vibrating feeder.)
- f. **Control Panel** : VFD drive for unbalance motor operated (2.2 kw, 950 RPM) of vibro feeder.
- g. **Extra Items** : 6 mtrs wire rope, D shackles - 4 nos. & 1 set of 4 nos. compression spring also to be provided along with GA diagram & control system (VFD panel) wiring diagram.
